Departure of Steamers.

FOR COLLINGWOOD AND THE EAST.

The Collingwood Line of Screw steamers leave one every day, from Dousman's dock, foot of East Water st., connecting at Collingwood with cars from the East.

FOR BUFFALO.

Screw steamers, with good accommodations for passengers, leave this Milorent transportation docks every day for Buffalo.

FOR PORT WASHINGTON, &C.

The Steamer Gazelle leaves Johnson & Olmsted's Dock at 5 o'clock in the morning, for Port Washington, Sheboygan, Manitowoc and Two Rivers.

FOR CHICAGO, &C.

The steamer Traveller leaves Johnson & Olmsted's Dock every evening, at 9 o'clock, for Chicago and intermediate ports.

Editorial Correspondence of the Sentinel.

Green Bay and Thereabouts—North-Eastern Wisconsin and Its Fisheries—The Valley of the Fox.

GREEN BAY, Aug. 11, 1859.

The State of GREEN BAY, is decidedly an ancient institution; the most so, doubtless, within the limits of Wisconsin. It is popularly supposed to have been founded, somewhere about two centuries ago, by the Jesuit Fathers, who first explored the waters of Lake Michigan, the Fox and Wisconsin rivers and the Upper Mississippi. The Indian traders who followed in their footsteps, gave the first business impulse to the young commonwealth, and a century, or so, afterwards, Green Bay had got to be known, far and wide, as the extreme out-post of civilization. Not more than twenty-five, or thirty years ago—that is before Milwaukee was—Green Bay came to be looked upon as the future commercial metropolis of the North-West; and even so recently as 1840 and '45, not a few shrewd business men, and real estate operators pitched their tents there, in confident expectation that it was to be the principal sea-port on Lake Michigan, and the busiest mart in all Wisconsin.

These expectations have not yet been realized; nor does the present aspect of Green Bay hold out a very flattering promise that their fulfilment is near at hand. And yet, the admirable location of the town; the fertile and salubrious vicinage; the glorious river, which, draining a splendid agricultural region, and affording inexhaustible water-power for manufacturing purposes, sweeps majestically past its wharves; and the noble Bay, a hundred miles deep and thirty or forty broad, which weds the silvery Fox to the blue Michigan, all seem to point to this, as the site of all others for a great Commercial City. That it has not yet attained such a position, must be attributed to other causes than the lack of abundant natural advantages. But though the past is lost, the future has much in store for Green Bay, if the people of that quiet, cosy, hospitable burgh, put forth the requisite effort to secure it. Railroads have done much, in these modern days, to supply, or equalize advantages of location; and in not a few instances, capital and enterprise have triumphed over great natural obstacles and achieved signal successes, where all success seemed impossible. GREEN BAY has only to profit by the experience of the past, to grow and prosper in the future.

Several of our party being delayed in "joining the expedition," we had two days to look about Green Bay, under the guidance of Col. C. D. ROBINSON, and there was no hour of the time that we did not thoroughly enjoy. At length, on Monday evening, we started in the good tug *Gurdon Grant*, to explore the waters of the Bay and the Fisheries of Northeastern Wisconsin. The trim U. S. Revenue Cutter *A. V. Brown*, Capt. MITCHELL, was in the Bay, on the errand of visiting and making soundings in the various Harbors, and we encountered her at several points on our cruise. Thus on Wednesday morning, after visiting two famous Trout Streams, Little Red River and Sugar Creek, which had been carefully "fenced in" with logs, and where I was brilliantly successful in entangling my line in the underbrush, every time that I made a cast, we met the Cutter in Little Sturgeon Bay, one of the finest Harbors on all the Lakes. It is completely land-locked, with plenty of water and good holding-ground close up to the shore.

Here our party divided up, each following his inclinations. Judge LARRABEE, M. C. from the Third District, went ashore to expound the mysteries of Democracy to the much puzzled denizens of that locality.—Major CHARLES DOTY, of Menasha, son of ex-Governor DOTY, and a native-born citizen of Wisconsin, profitably occupied his time in catching fish for an anticipated chowder.—His Honor, Judge MCARTHUR, visited the Cutter, with a view to the study of Maritime law, and exhibited great proficiency in the acquisition of Nautical terms. Mr. NEVILLE, of Green Bay, "paddled his own canoe" up the Bay, in search of ducks; and firing into a large flock of Teal, skillfully succeeded in missing the whole of them. Mr. JACOBI, the accomplished editor of the Green Bay *Banner*, a German newspaper, made an equally brilliant demonstration on shore.—For my part, thinking the opportunity a good one, I devoted myself to an investigation of that "mysterious increase of voters" in Door and Kewaunee Counties, which so badly bothered the Republicans last Fall. The first house I came to was inhabited by a family of twelve, father, mother and *ten* children. The next was that of ROBERT STEPHENSON, who, with his good dame, has lived at Little Sturgeon, twenty-two years; during which period *fourteen* children (ten boys and four girls) have been born to them, all but one still living; several grown up; one of the daughters married and "following in the footsteps" of her mother; and yet, as Mrs. STEPHENSON assured us, she had never had a Doctor in the house. I hope the Doctors will excuse me for mentioning this fact. Upon learning that the women about Little Sturgeon Bay were all following suit to Mrs. STEPHENSON's lead, I did not think it worth while to pursue my investigation, into the "suspicious increase of voters" in Door and Kewaunee Counties, any further.

We passed a delightful day at Little Sturgeon; the Cutter taking the soundings and bearings, and the Tug carrying us to and fro on our several errands. Early Thursday morning, we started across the Bay for Menomonee, the river there forming the North-eastern Boundary between Wisconsin and Michigan. While the Eastern shore of Green Bay is bold and the water deep enough for the largest Lake craft to within a very short distance from the beach, the Western shore is flat and marshy and the water shallow.—At the mouths of all the rivers putting into the Bay, the Menomonee, Oconto, Peshtigo, &c., a bar has formed and wide flats extend on either side. The result is that vessels, going thither for Lumber, have to lie outside and take their cargoes, in whole, or part, from scows and rafts. This adds not a little to the cost and labor of shipping Lumber.—At Menomonee, there is a pretty good channel for vessels drawing 8 to 10 feet water, but it is crooked and not staked out; and vessels need the aid of steam to get in and out. The Revenue Cutter ran over there Thursday, to sound and stake out the channel—a good deed, for which Lumbermen will gratefully remember Capt. MITCHELL.

We had a pleasant sail up the Bay, on Thursday, in the steamboat *Fanny Fish*, Captain WHITNEY, a snug, fast-going and sea-worthy craft; stopping at the more important points on the route, to land and discharge passengers and freight. Quite a number of vessels were lying off Menomonee, Oconto, Peshtigo, &c., waiting for cargoes.

At each of these places, they confidently look for a liberal appropriation from Congress, next year, to improve their harbors—as they strained a point, last fall, to give large majorities for Judge LARRABEE for Congress. No doubt the Judge will do his best to fulfill these expectations; but if he succeeds—as I hope he may—it will be by the help of Republican, not Democratic votes.

Thursday evening found us once more at Green Bay, under the hospitable roof of Col. ROBINSON, where we passed a pleasant evening, discussing the productive fisheries of the Bay and the incidents of the expedition. It was agreed on all hands that it had been eminently successful, and, without seriously diminishing the number of Trout, Black Bass, Perch, &c., in the waters of the Bay, had largely contributed to the enjoyment and edification of the whole party. Our homeward trip must be described in another letter.

R. K.

John P. McGregor Assailed.

Mr. Cleveland assails, through the columns of the *Sentinel*, the character of John P. McGregor, Esq., a prominent candidate for the republican nomination for Governor. We infer from this that Mr. McGregor is not the *Sentinel's* first choice, and yet the policy of allowing a prominent republican to be attacked through its columns just before the assembling of the State Convention, may be very seriously doubted by McGregor's friends.—*News, of Saturday.*

This is a very silly *canard* of the *News*.—Mr. CLEVELAND, not the SENTINEL, is responsible for the statements in the communication to which the *News* refers. As to Mr. MCGREGOR, there is no man in the State whom we hold in higher esteem, or should more heartily support as a candidate on the Republican Ticket.

"STILL HARPING, &C."—The *News* of Saturday, contains another letter, a column long, from the illustrious Col. ARTHUR WELLINGTON HART, which is evidently intended as an "extinguisher" for the *Sentinel*, *Free Democrat*, Gov. RANDALL and others of the Colonel's imaginary foes. The shot seems, in some way, to have missed its mark; for, when last heard from, all the parties at whom the Colonel's pop-gun was aimed, were alive and doing well.

The Colonel, by way of variety, succeeds in smuggling one truth into his last letter. It is the final sentence, which runs thus:

> It has struck me so; but I may be "cracked." I only think so, and a good many believe with me.
>
> Yours, A. WELLINGTON HART.

Obviously, the Colonel has good reason to "think" and "many to believe," that he is "cracked." Let us hope that some good Samaritan will stop the "cracks."

A QUESTION.—Will Post Master Steever, or some one in his behalf, inform the public, by what authority of law, he allows mail matter to pass through his office *free*, because C. H. LARRABEE has put his name upon it? Where is the law allowing Judge LARRABEE *more* to *frank*?

The Post Master is a good lawyer, and can doubtless with the aid of the ex-Judge, point out the law. If none exists, he is too good an officer to connive at any fraud upon the revenues of the Post Office.

F.

Milwaukee, Aug. 11, 1859.

It is suggested by some, that the above question originated in the Post Office of the city; and that Post Master STEEVER, or some one in his behalf, is endeavoring to create a prejudice against Judge LARRABEE by insinuating that the Judge is using the franking privilege without authority, instead of for information.—*News of Saturday.*

This "suggestion" emanated from the *News* Office, which owes Post Master STEEVER a grudge, and improves this opportunity of feeding it. Of course, neither Post Master STEEVER, nor any one "in his behalf," had anything to do with the question. Our correspondent "F." elsewhere replies to the Post Master's explanation, and makes good the exception which he takes to Judge LARRABEE's premature franking.

A PONDEROUS POLITICAL LETTER COMING.—A correspondent of one of the New York papers writing from Washington about the unauthorized publication of the late famous Wiseletter, says:

> I can inform you with confidence, that Gov. Wise is about to publish a letter, *twenty or thirty columns*, about this business, in which he will give a history of the Albany regency for the last thirty years, that he has known them. He will expose all their schemes of treachery and back-slidings, and show the South what kind of men they are who are attempting to control the State of New York, and to adjust its delegation to the Charleston Convention to suit their own aims. It will be one of the most scathy political documents that has ever been given to the public, and will make the Albany political schemers wince like galled jades under the lash. It will be ready for the press in a few days.

THE CHIRIQUI GOLD.—The Chiriqui gold discoveries form the topic of discussion in the Panama papers. The schooner *Carolina* had sailed for the region with fifty passengers on board, and another vessel was shortly to leave. The Panama *Star & Herald* says:

> "Letters received in this city from David, dated July 14, state that the people from all directions continue to flock to the gold diggings, and that the yield of gold obtained from the "huacas" continues undiminished. The Prefect of the Department informs the Governor that the elections (for Procurado, etc.,) did not take place on the day appointed, as no electors appeared at the poll—all being too busily engaged in the grave diggings."

THE wife of ZINC P. CLARK, formerly of Horicon, was instantly killed on the 10th inst., by the blowing down of the house in which she resided, at Oak Grove, about 3 miles south of Juneau.

THE Hudson *North Star* states that a steer fell into the well of JOHN COMSTOCK, 105 (!) feet deep, and was not injured. Truth certainly *lies* in that well.

THE OSHKOSH *Courier* says:

> Our prediction, that in ninety days from the time of the great fire, there would be more new buildings erected on the burnt district than there were old ones destroyed, is fully verified. The burnt spots are now few and far between.

AN ARKANSAS HUNT.—Two parties of ten hunters each, recently closed a six weeks' hunt in Arkansas, with the following result:

> "Such birds and animals as are destructive to farmers alone were to be counted—such as hawks, owls, wild cats, wolves, squirrels, &c. Small birds were not counted in. These twenty hunters produced the enormous number of fourteen thousand scalps! Two members of the company each killed over four thousand of the "varmints." The hunt was continued for four or five weeks. Either game must have been very plenty, or they were matchless hunters.

A GRAND EXCURSION to Milwaukee and back on the steamer "Planet" is to take place on Thursday of next week, in aid of a religious society. Tickets to Milwaukee and return, one dollar, or one-fifth fare. The affair will be an attractive one.—*Chicago Press & Tribune.*

Later From Pike's Peak—The Dark Side of the Picture.

The following, from the Rockford Daily *Register*, was addressed to E. B. Clark, brother of the miner who writes it, a very respectable gentleman of Rockford:

ROCKY MOUNT'N VALLEY, July 24, '59.

DEAR BROTHER:—Years of June 24th, was received July 17th, and you may be sure I was glad to hear from home, as my last from there was dated May 5th. From what I can learn Horace Greely has set the Eastern world in a great excitement with his glowing accounts of the gold discoveries in the mountains; and report says there are now 20,000 emigrants on the way hither, who would have been at home had it not been for said report. Now I will tell you what he knew of the mines, and what I think I know. The Gregory diggings had but just been opened, and they were yielding from 10 cents to $1 per pan. A large emigration had just landed and the sight of gold, since their expectations had been blasted at Cherry Creek, produced a tremendous excitement. Every man felt himself worth thousands, because, forsooth, he was in the land of gold, and had nothing to do but to dig it out.

The miners, and in fact every one here with a very few exceptions, are the greatest liars I ever saw. Greeley was here then a few days, and swallowed everything that was told him.

That there is gold here, and in large quantities, I do not deny; but that more than one in five hundred is doing better than a common day-laborer in the States, is untrue.—Some say one in a thousand is a fair average.

There are three kinds of diggings here, viz.: lead, gulch and bar. The leads are in the rocks on the mountains. They are found by the "Blossom Rock," as it is called; or burned stone on the surface, occasioned, as is supposed, by internal heat or volcanic action of some earlier day, which opened the rock, forming a seam now full of dirt or rotten stone, in which the gold is found. Gregory's lead has only the flour gold, and they are or were the richest found. These leads commence at the foot of the mountain and run in a north-eastern and south-western direction. The dirt has to be washed, which requires considerable water, and all the water is produced of snow as it melts, and that is nearly used up. Besides this, for some cause, these leads have nearly ceased to be profitable, or, as they say, "lose the pay dirt."

Some have dug from eighteen to twenty feet in solid rock and have not found the object of their search. Claims that once sold for $20,000 can now be bought for $1,000! A company from Cleveland, Ohio, camped near us and purchased one of these claims, paying down all they had, even to guns and most of their provisions.

They worked it nearly four weeks without one cent of pay dirt, when one of their company was nearly killed by the unexpected explosion of a blast. What will become of them God only knows.

Wages here are only $2.50 per day, and it costs at least $1 per day for board, and work is very scarce at that. Gulch diggings are those located in sloughs at the foot of the mountains. They cannot be worked when the water is high, and when it is dry they have more. They have paid well when they could be worked.

The bar diggings are on the banks of creeks, and are nearly forsaken at present. It requires two or three months to open a lead, and it may pay when opened, but no certainty of it. There are a great many sick in the mountains, five died yesterday, and four the day previous, in our vicinity of the mountain fever. Our company have all been sick, during the past two weeks.

Taking all things in consideration, we have concluded it would be wisdom in us to make tracks for *America!* Hundreds are leaving every day and as many more coming in.

We shall start to morrow, *ever permitting*, for *home*, and hope to reach Council Bluffs in five weeks.

* * *

I have a great many things to write you, but shall forbear, as I shall soon have a better way of communicating thought.

Your brother,

H. G. CLARK.

Tremendous Conflagration—Loss $200,000.

(From the Cincinnati Gazette, Aug. 12.)

We gave yesterday morning, in our country edition, a partial account of a terrific fire which broke out about one o'clock yesterday morning in the rectifying establishment of Boyle & Co., on East Second street. This edition was put to press while the fire was still raging. In our city edition we gave a very full and accurate account of the fire.

Below we publish the main facts given yesterday, together with some additional details

The first fire broke out in the rectifying establishment of Messrs. Boyle & Co., on the south side of East Second street, between Sycamore and Broadway streets, Nos. 53, 55, 57 and 59.

How the fire originated is not known.—Some of the hands went through the building at nine o'clock and at that time everything was all right. The only fire in the building on Wednesday was in the portable furnaces of some coppersmiths. The fire was first seen by Policeman Riggs and Williams while on their beat. They gave the alarm to the No. 10 and No. 1 Companies—the latter Company getting on the first wagon. In a few minutes the whole city was alarmed—no less by the repeated ringing of the bell on the several towers than the flames which towered up majestically against the black sky and made good the place of the absent moon.

There were constant explosions of whisky in the burning building and the heat was intense, threatening all the neighboring buildings. The fire companies made strenuous efforts to save them, and were partially successful. The flames were got under, as was supposed, when they communicated to the rear of Messrs. Pike & Co.'s warehouse, on Yeatman street. The tower bell was rung desperately for the Mohawk and Brighton, and hand companies.

Pike's building was saved but not without loss. The large warehouse of Messrs. Boyle & Co., on the west side of the alley, subsequently caught fire, and later the stores of Messrs. Crane, Breed, & Co., and G. Henshaw, on Sycamore street.

It is impossible to describe the singular spectacle as the whisky spilled from the broken barrels ran into the gutters, and so down into the river, while the cinders fell from above in dazzling showers of golden rain, which no pyrotechnist ever rivalled.

The supply of water in the cisterns failed, and the engines were obliged to dam up the gutters and suck up the water which had been once thrown upon the fire. Eventually, engines were stationed further off and water obtained. It was said to have been forced, in one case, nearly half a mile.

The walls of the building in which the fire originated, fell not all at once, but by piecemeal, doing damage to the roof of the grocery store of Mr. Swasey & Co., the clothing store of Mr. Swasey & Co., the clothing store of Brummer & Clering, and other property fronting on Broadway and running West.

Human life too was endangered by these falls. Four firemen, who were on the ladders, placed on adjoining buildings, were struck by the bricks and very badly cut and bruised though not fatally. They were all doing well yesterday. Their names are Jacob Phillips, John Vetter, Wm. Echerle and Michael Cerer.

An unfortunate difficulty occurred between some of the firemen and the police, during the progress of the fire. Some time since, officer "Omnibus" Bailey, had occasion to disperse a crowd of loungers on a street corner. One of the number was a fireman, who made some disturbance, and was arrested by Bailey, but subsequently released. Yesterday the fireman insulted and bothered Bailey so much that he arrested him. Friends of both came up, and a regular fight seemed inevitable when the Chief Engineer and the Chief of Police came up, and by their presence hostilities were prevented. The matter will undergo official investigation, but it would seem that the firemen were in the wrong, decidedly. Very few had their badges with them, and of course it was impossible to distinguish them from ordinary citizens.

We learn that the proprietor of one of the buildings burnt, had just had it stored with choice liquors, and when he came down to the ruins he cried like a child.

The entire loss is estimated at about $200,000, which is some $8,000 more than the total amount during the last official year of the Fire Department.

Below we present the Insurances and losses as nearly as could be learned yesterday. We shall publish an accurate report of these from authentic sources to-morrow.

FRENCH SILK CROP.—The Paris correspondent of the London *Times*, in his letter of the 27th ult., says:

> New silk has made its appearance in the markets of Dauphine, and choice samples have been sold as high as 80f. and 85f. the kilogramme, and inferior 78f. Coocoons are quoted at 6f. 50c. and 7f. 50c. the kilogramme, according to quality. There is a tendency to a fall in price, which indicates that the crop is better than was expected in consequence of the stormy weather.

THE ARTILLERY TARGET SHOOT TO-DAY.—The Washington Artillery Company, Capt. BADE, will form on Market Square at 9 o'clock this morning for inspection and review, and thence march out to Major LIEBHADER's farm, where they will have a grand target shoot with their cannon. The grounds where they intend to practice are a short distance from the city, on the west side of the river. Omnibusses will leave from the corner of East Water and Wisconsin streets, for the excursion ground, during the day.

THE LAWYERS should thank STRICKLAND & Co., Booksellers, for the work they are now printing, namely, the Code of Procedure of the State of Wisconsin, containing all the amendments of the Legislature. It is compiled by WALTER S. CARTER, of our city, has been submitted to the examination of the best Code Lawyers in the State, and received their most hearty approval. It will be ready about the 15th of September, and will cost $1.50.

A CARD.—The undersigned take pleasure in testifying to the prompt and satisfactory payment by the North Western Insurance Company of their loss, $2,000, in the late fire in Young's Block, being the first policy we have paid. JULIAN WHITE, General Agent, and Messrs. J. A. NOONAN and F. HETER, Agents of the Company in this city, have evinced every disposition to aid us in adjusting the loss, and the same has been paid 30 days in advance of its maturity.

We can recommend the North Western to our neighbors as a reliable and prompt Company.

DEMOR & RAYMOND.

Milwaukee, Aug. 12, 1859.

FROM ALL PARTS of the State, we hear of the abundance of game, waiting only for the legal restrictions to be raised, when the fattest kind of chickens will throw themselves in the hunter's way, for the mere pleasure of dying game.

FIRE.—About 2 o'clock Saturday afternoon, an alarm of fire was given, which was found to proceed from a little shanty in Clinton street, between Lake and Florida, Fifth Ward. The roof caught fire, but it was soon put out with only about fifty dollars damage.

CALL YOUR ATTENTION to sale of furniture C. WALL has on Tuesday morning at dwelling house on Spring street. Read his advertisement.

WHO HAS LOST A KEY?—A large brass key was found in the Fourth Ward, on Friday morning. The owner can have it by calling at the *Sentinel* office.

HOUSES TO RENT.—J. S. FILLMORE has 2 houses near Spring street, adjoining the residence of H. L. PAGE. Rent $7 per month.

SAMUEL I. BRIDGE,
Real Estate, Money & Insurance Broker.

I OFFER my services for the negotiation of Notes' Mortgages, Stocks, Bonds, and other securities, and for the *obtaining of Loans*. Also, for the purchase and sale of REAL ESTATE. Taxes paid. Abstracts of titles furnished. Collections made in all parts of the country.

Marine and Fire Insurance Effected,
In the best Companies, at the lowest rates.

MORE TO BE ADMIRED THAN THE
RICHEST DIADEM
EVER
Worn by Kings or Emperors.

What? Why a Beautiful Head of Hair.

BECAUSE IT IS THE ORNAMENT GOD *Himself appointed* for our race. Readers, although the rose may bloom on a hundred bushes in the growing year, they can never so sparkling the teeth be those of pearls, if the head is bereft of its covering, or the bright locks of beauty, do not wave in their native skill, if sprinkled with gray, nature will lose more than one half her charms. Prof. WOOD'S HAIR RESTORATIVE is the only preparation ever offered to store and permanently secure to all such an ornament. Read the following and judge. The writer of it offers it to *Benighted Britain*. Testimonials, coupled with the costs and expenses of sale.

Dr. WOOD:— New York, April 10, 1858.

Dear Sir:—Permit me to express to you the obligations I am under for the entire restoration of my hair to its original color; about the time of my arrival in the United States I was rapidly becoming gray, but upon the application of your HAIR RESTORATIVE it soon recovered its original hue. I consider your Restorative a very wonderful invention, quite efficacious as well as agreeable.

I am, dear sir, yours truly,
CHARLES LALLEMAND.

"Drych a'r Gwyliedydd."
Welsh Newspaper office, 13 Nassau st.,
Brighton, 1859.

PROF. O. J. WOOD:—*Dear Sir*:—Some months or six weeks ago I received a bottle of your HAIR RESTORATIVE and gave it to my wife, who concluded to try it on her hair. I must say that it has done more than restore the gray hair to its original color, but to her as well as my surprise, after a few weeks' trial it has had the effect of curling it. Before, it was straight, all the gray hairs to a dark brown, at the same time beautifying and increasing the growth of hair. I certainly recommend the above Restorative to all persons in want of such a change of their hair.

CHARLES GARDEW.

New York, July 25, 1857.

PROF. O. J. WOOD:—With pleasure do I recommend your Hair Restorative, as being the most efficacious article I ever saw. Since using your Hair Restorative my locks were almost white, but now they white have gradually grown dark; and I now feel confident that a few more applications will restore them to their natural color. It has also relieved me of all dandruff and unpleasant itching, so common among persons who perspire freely.

J. G. KILBY.

PROF. WOOD—About two years ago my hair commenced falling off and turning gray. I was advised by a friend to use your Restorative in January last. I commenced using your Restorative in January, and in a few weeks my hair ceased falling off. It began to fill up, grow out, and turn back to its former color, (black.) At this time it is fully restored to its original color, soft, beautiful, and luxuriant, and I cheerfully recommend its use to all.

Chicago, Ill., May 1, 1857. J. D. HOES.

The Restorative is put up in bottles of three sizes, viz: large, medium and small, the small holds half a pint, and retails for one dollar per bottle; the medium holds twenty per cent more than the small, and retails for two dollars per bottle; the large holds a quart, forty per cent more in proportion and retails for three dollars.

O. J. WOOD & CO., Proprietors, 312 Broadway, N. Y. (in the great N. Y. Wig Making Establishment,) and 111 Market St., St. Louis Mo.

And sold here by all druggists and fancy dealers.

For sale by C. Harrington & Co., H. Fess, Jr., Bosworth & Sons, Green & Button, and all druggists in Milwaukee, and Wisconsin. 1y20d&wdmnod

ASSIGNEE'S SALE
OF BOOKS & STATIONERY.

THE STOCK OF BOOKS, STATIONERY and Fancy Articles, also the Store Fixtures at the old stand of C. H. Herman, 175 East Water street, will be sold AT PRIVATE SALE

BELOW NEW YORK COST:

TELEGRAPH!

REPORTED BY THE N. Y. ASSOCIATED PRESS FOR THE DAILY SENTINEL.

Arrival of the North America.

FARTHER POINT, Aug 13—3 P. M.

The steamer *North America* has passed this point on her way to Quebec. She left Liverpool on Wednesday, the 3d inst., and her advices are the same as furnished by the steamer *City of Baltimore*, intercepted off Cape Race by the news yacht of the Associated Press.

The despatches received by the *North America* embrace the details of numerous disasters to American shipping. The ship *Glencoe*, from New York, bound for Bremen, took fire on the 30th of July, and was run ashore near Bremen Haven. The vessel was burned to the water's edge.

The ship *Abby Blanchard*, for New Orleans, took fire at Bordeaux, France, on the 29th ult. The amount of damage was not ascertained.

The ship *Vancouver*, from New York, has been totally wrecked on the South Bank, near Shanghai. The crew was saved, and have arrived at Shanghai.

The ship *Saxonville*, from Boston, for Hong Kong, put into Mauritus, June 26th, in a leaky condition. Part of her cargo had been thrown overboard.

The ship *Robert*, supposed to be from Guttenberg, sprang leak near Skanen, and was run ashore near Portland, on the 25th July. About 50 persons landed from her.

The Texas Survey.

WASHINGTON, Aug. 13—4 P. M.

The Indian Department has received despatches from the commission of the U. S. and Texas boundary survey. A trip was made up the Picos river, until Capt. Whipple's trail was struck. Much has been added to the geographical knowledge of a region heretofore but little known. The practicability of a good wagon road where it was heretofore reported to be impossible to take a wagon, has been demonstrated. Such information has been received at the Indian Bureau as leads to the belief that the Indians who were lately on the reserves at the Brazos Agency, have by this time been removed beyond the boundaries, and thus the difficulties between them and the citizens of that State are ended.

The Creeks and Cherokees, between whom a general war was anticipated, are again at peace.

The Southern Railroad Convention, among their business resolved to run a double daily train between New York and New Orleans from Thursday next.

Fire and Loss of Life.

BOSTON, Aug. 13—3 P. M.

A fire at Lawrence yesterday afternoon destroyed the United States Hotel, the Central Congregational Church, the new Court House and one or two small wooden buildings. At the same time a fire broke out in the Unitarian Church, some distance from the hotel, which was partially consumed. The falling walls of the hotel killed three men, named Stanley, Turner, and Leighton. The total loss is about $150,000.

Mission to Central America.

WASHINGTON, Aug. 13—3 P. M.

Gen. Cushing, who is now here, has been tendered the mission to Central America, but his engagements are of such a nature as to render his acceptance of the appointment impossible. The Administration regards the position as of great importance under the existing circumstances.

THE SENTINEL.

DAILY, TRI-WEEKLY & WEEKLY.

RUFUS KING, EDITOR.

MONDAY MORNING, AUGUST 15, 1859.

Republican State Convention.

A Republican State Convention will be held at the City of Madison, in the Assembly Hall of the Capitol on Wednesday, the 31st day of August next, at 12 o'clock M., for the purpose of nominating candidates for State officers to be supported by the party at the ensuing general election; and to transact any other business that may properly come before it.

As the subject of selecting delegates to the next National Convention may be entertained and acted on by the Convention, it is suggested that the people in their primary caucuses, and the district conventions make such expression as will intimate to their delegates and the State Convention, the general sentiment of the State on that subject.

Each Assembly District will be entitled to two delegates in the Convention.

It is recommended that District Conventions for the selection of delegates be held throughout the State, on or before the 25th day of August, and that committees make early calls for that purpose; and it is especially urged that every district be duly represented in the Convention.

The New Constitution for Kansas.

The Constitution recently framed by the Kansas State Convention, at Wyandotte, is to be submitted to the people for ratification on the 4th of October next. The most important points of the Constitution are thus summed up in brief:

In an ordinance prefixed to the instrument the State relinquishes the right to tax certain of the lands included within its boundaries, provided Congress grant them for the use of common schools, the maintenance of a State University, for the erection of public buildings, and for the use of charitable and benevolent institutions, etc. The amount of land to be thus donated is nearly a million of acres, besides five per cent. of the proceeds of the public lands in the State, disposed of after its admission into the Union. The boundaries of the State are defined as follows:

Beginning at a point on the western boundary of the State of Missouri, where the thirty-seventh parallel of north latitude crosses the same, thence running west on said parallel to the twenty-fifth meridian of longitude west from Washington, thence north on said meridian to the fortieth parallel of north latitude, thence east on the said parallel to the western boundary of the State of Missouri, thence south with the western boundary of said State to the place of beginning.

The bill of rights comprises twenty sections. It declares the equal and inalienable right of all men to life, liberty and the pursuit of happiness: the right of the Legislature to alter, revoke, or repeal any special privileges or immunities which may have been granted; the right of the people to bear arms; the inviolability of trial by jury; repudiates slavery; asserts freedom of conscience, and of the press; establishes exemption from imprisonment for debt except in cases of fraud; and abolishes all distinction between citizens and aliens in reference to the purchase, enjoyment, or descent of property.

The Constitution is comprised in fifteen articles. The executive officers hold office during two years. The supreme executive and pardoning powers are vested in the Governor; and the legislative power in a Senate and House of Representatives, to meet consist of more than 100 Representatives and 33 Senators. The Judiciary to be elective.—Every white male person of 21 years and upwards who is a citizen of the United States, or any person of foreign birth who may have declared his intention to become a citizen agreeably to the naturalization laws of the United States, who has resided in the district six months previous to an election, to be entitled to a vote. Provision to be made by law for the establishment of a State University.—No distinction to be made between the rights of males and females in providing for the formation and regulation of schools, and no religious sect to control any part of the Common or University funds.

No special act conferring corporate powers to be passed, and no circulating notes of less denomination than $5 to be issued by any banking institution. Lotteries are prohibited; and any person engaged in a duel, either as principal or accessory, to be ineligible to any office of trust or profit. The Legislature is to provide for the protection of women, married and single, in acquiring and possessing real and personal property; and in the case of married women separate and apart from their husbands. And an homestead to the extent of one hundred and sixty acres of farming land, or one acre within the limits of an incorporated town or city, to be exempted from forced sale under any process of law.

There is hardly any question but that this Constitution will be ratified by an overwhelming majority of the people of Kansas, notwithstanding the Democratic Members of the Convention refused to sign it, and the party generally will probably vote against it.

THE PROPOSED ITALIAN CONFEDERACY.—The more we learn of the Emperors' treaty of Villa Franca, the more odious does it become to those who looked for some benefit to Italy to flow from the late war on her soil. By it, Sardinia, in whose interest the war was incurred, is humbled, and degraded in a manner that ought to make the blood boil in Sardinian veins at the duplicity, hypocrisy and treachery of the man, who, under the pretence of friendship, has delivered their land into the merciless hands of Austria; for not only is she subjected to the mortification of being denied a place in the Zurich Conference to gratify the personal hatred of the Austrian Emperor, but her position in the proposed Italian Confederacy is one that is certain to bring on her repeated mortifications and defeats. In this Confederacy, composed of seven States, Sardinia is to have three votes, Parma one, Tuscany two, Naples three, Venice two, and the Pope two. When it is remembered that Venice is to be governed by an Austrian Archduke, that the ducal rulers of Tuscany, Parma, and Modena are, some of them of Austrian blood, and all of them notoriously under Austrian influence, while Naples and Rome can always be counted on to vote against everything liberal, and in favor of everything tyrannical, it will be seen how humbled and how helpless will be Sardinia. The eleven united votes of the six other States will be invariably thrown against Sardinia, who will thus see all her own measures deserted, while compelled to acquiesce in those adopted by her hostile allies.

QUESTION RENEWED.—The Postmaster does not answer my question.

I did not ask him when the franking privilege of a member of Congress *ended*. I asked when it *began*. Col. STEEVER refers me to the act of 1847 to show when the *frank expires*, and to "Post Office regulations" in reference to the "Franking Privilege" generally, but does not the Postmaster know that the *Frank* is given to members by act of Congress, and that by act of Congress is designated, the *beginning* as well as the end.

What has become of that law of Congress which said the right to frank began 30 days before the member *took his seat*? Has it been repealed.

If not, the question seems by what law does Judge LARRABEE *now* assume to frank?

I fear the ex-Judge would hardly thank Postmaster STEEVER for resting his claim upon "Post Office Regulations." F.

TERRIBLE ACCIDENT ON THE SOUTH CAROLINA RAILROAD.—A locomotive on the South Carolina Railroad blew up last week, killing five persons who were on the tender, immediately. The bodies of the five men were found in different portions and horribly mutilated. Three of their heads were blown from their bodies; one was doubled up, with chest blown away, and another so entirely disfigured as to be unrecognizable. The top of the head of one was blown off. The bodies of three were readily recognized; the body of the engineer, one of these men, was only identified by his clothing and his gray beard; while the body of the fifth was determined alone, from the fact that he was the only man missing. Arms and limbs were blown off and fractured to an extent beyond description. The body of one was found one hundred and fifty yards from the railroad track.

REMARKABLE RELIGIOUS REVIVAL IN IRELAND.—An astounding revival of religion is in progress in Ireland, and has created the most profound excitement. On a recent occasion a prayer meeting was held at the Botanical Gardens, at Dublin, and the audience was composed of forty thousand persons, making probably in all respects the largest and most remarkable prayer-meeting ever held. As many of this vast congregation as could, united in singing the 100th Psalm.—At this meeting there were some remarkable cases of conversion. Some times as many as twenty persons at once were observed in a single circle of worshippers, into many of whom the meeting finally divided—struck down under a deep conviction of sin. Some of them prostrate upon the sward, and others reclining upon the laps of friends.

These were affected in various ways—some weeping bitterly, but silently, under a deep conviction of sin; some crying piteously for mercy; and others unable to utter a word, so thoroughly were their physical faculties in abeyance. In many parts of the garden, groups of boys and girls, who had retired from the body of the congregation, formed in the shrubbery little meetings for prayer and exhortation among themselves. Some of these were ragged little boys, who had evidently belonged to the outcast classes. One of these cases was that of a little boy, about eleven years old, who, in a very retired part of the garden, engaged in prayer, surrounded by about twenty lads of the same age and class. This lad, was, it appears, neglected by his parents, and formerly obtained a scanty livelihood by hawking ballads through the streets. The accounts of this great revival in Ireland, both in its extent and striking effect upon the people, especially the remarkable bodily manifestations it has produced, are of peculiar and singular interest.

SUPERIORITY OF AMERICAN RAILWAY IRON.—The Philadelphia *North American* publishes several conclusive testimonials as to the superiority, both in point of durability and cheapness, of rails made of Pennsylvania iron, over imported British iron. An experiment was tried on the Central Railroad of Georgia to test the qualities of the two kinds of rails, the result of which has proved in the highest degree favorable to the rails of our own manufacture from American iron. This road was supplied in 1856 with part imported and part American rails; they were laid on opposite sides of the track for a long distance, so that their qualities might be fairly tested, under perfectly equal conditions. The rails were of the same pattern, and an extra price was paid for the English rails to insure the best quality of iron. After more than two years of wear, the General Superintendent of the Road has given his report, from which it appears that the American Rails were much better than the imported ones.

A Secret Circular from Washington—Scheme to Carry the Iowa Election by Imported Votes.

[*From the Burlington Hawk Eye, 10th.*]

The following circular, printed, all except the signature, and marked confidential, was addressed to Mr. Finney, of Monroe county, under the mistake that he was a Democrat. By this fortunate mistake the people of Iowa are forewarned, and as a matter of course, forearmed, against the dastardly attempt of this corrupt Administration to carry the Iowa election by a wholesale importation of voters from beyond the borders of our State. Mr. Donnellan, who is a myth, probably, says it is desired at Washington that the Democratic State Ticket should be elected—that tables have been made at Washington showing the required gains in order to carry the State "assuming the American poll of 1856 to be Democratic," and the average gains for each county, from which data Mr. Donnellan (J. B.) says it can be comprehended at a glance to "what extent the outposts require strengthening," i. e., how many voters it is necessary to import, and where they had better be placed. Then it is gravely proposed in the end, that this game of fraud and pipe-laying may be secretly and successfully carried out that the name of one or two "sound" and "discreet fellow-workers," whether Democrats or Americans, matters not so they are discreet, in each township, be sent to Washington, and to those persons Donnellan (J. B.) will transmit this matter for "distribution money," to pay the expense of imported voters and instructions. And these "sound and discreet fellow-workers" in order to make them prompt and active and diligent, are promised office—a little effort would result in their benefit."

Was there ever a more damning scheme of villainy exposed? Look at it, honest Democrats, and blush for shame! Look at it, Germans, read it carefully, and see the secret machinations of those who would seduce you into voting the Democratic ticket. Look at it, Republicans. Your State has been mapped off, and nice calculations made at Washington of the number of voters needed, and decisions made of the place where they shall be colonized—agents, with full instructions and needed means, have been appointed in every township in the State to carry out this inhuman scheme of executive villainy, and every preparation made to precipitate upon your fair October all the voters needed to defeat your ticket.

In this scheme are enlisted the leaders of the party in Iowa of every shade and hue.—Shall it succeed? Will you be thus trampled down? Shall the frauds of Minnesota and Kansas be re-enacted in Iowa! *Forewarned, forearmed.*

(The following is the circular alluded to in the foregoing article.—EDS. P. & T.

(Confidential.)

WASHINGTON CITY, D. C., July 28.

Sir: In view of the approaching Presidential campaign, the election of a United States Senator by the next General Assembly, and the fact that the Democracy of Iowa have on their State ticket at the October election men who are the unanimous choice of the party, it is here as with you, desired that they should free themselves, in the management of their internal affairs, from the opposition rule, while the "golden opportunity" is presented.

In view, I say, of all this, as an individual, a citizen of Iowa, and a Democrat, I too, feel a deep interest in her welfare, and the success of our party, and in order to render more efficient service—from this distant point—have prepared, from the popular vote of 1856, and the State poll of 1858, a tabular exhibit, showing the political condition of the State, as follows:

1st. The Democratic majorities and minorities in each county.

2d. The required gain—as assessed to each county—by the ratio of population.

3d. The loss and gain of 1858 and 1858, in each county, assuming the American poll of 1856, to be Democratic in State elections; and

4th. The average required gain for each county.

From this statistical exhibit (which is officially reliable,) the Democracy of the State will be able to comprehend, at a glance, to *what extent* the outposts require strengthening, in their respective counties.

Five thousand copies of said exhibit will be printed, being about one copy to every ten Democratic and American voters, which, with a much greater proportion of public document matter, suitable to the time and place, it is desired to distribute in each precinct in every county throughout the State; and, to accomplish this end, I have the honor to request that you may promptly furnish me with the name and post-office of one or two sound and discreet fellow-workers in the cause in *each township* in your county. To these gentlemen I would transmit this matter for distribution, taking occasion to remind them how much good a *little effort* would result in, to their benefit and that of the Democracy.

In connection, it is deemed proper and expedient to state that I have communicated with the Chairman of the State Executive Committee in reference to the creation of a Democratic State fund for such aforesaid purposes; and in event of an indefinite reply, would further request that you will ascertain whether your county club can warrant her quota (five or ten dollars) to aid in defraying the expense incident to the carrying out of the above-mentioned programme.

The good effect of this is, of course apparent to us all; and believing that you as a Democrat, awake to the necessity of a vigorous effort for the ascendancy of our party in Iowa, this fall—will appreciate the prompt action on my part consequent upon the limited time to carry this service through.

I am, very respectfully,
Your ob't serv't,
G. DONNELLAN.

THE OFFICIAL RETURNS of the earthquake at Erzeroum, Turkey, on the 2d of June, report the number of dead at 880, of wounded at 200, and of missing 60. Of the 6,000 houses, or thereabouts, of which Erzeroum consisted, 2,000 have been totally destroyed, 1,500 seriously damaged, and nearly 1,000 of the remainder more or less injured.

"O, MY DEAR, how came you so wet?" inquired an affectionate mother of her son.—"Why, ma, one of the boys said I darsen't jump into the pond, and by jingo, I tell you I ain't to be dared."

MYSTERIOUS AFFAIR AT HYDE PARK.

A Human Head Found—The Head Disappears.

Yesterday noon, about twelve o'clock, a German basket maker, named Michael Lowe, living at the corner of Butterfield and Commerce streets, near the Archer Road, while engaged in cutting willow on the east side of the Illinois Central track, about half way between the Reform School and Hyde Park, found the head of a man concealed in a small clump of willows.

Several persons were in the vicinity, but the man informed none of them and commenced a search for the body. During the search he discovered in near proximity to the head, the waist and a portion of the skirt of a woman's dress, apparently torn off. The dress was a small figured red calico. He also found a white linen shirt; one of the sleeves was entirely torn off, and the remainder of the shirt torn in several places. Also a pair of short cotton flannel drawers.

At five o'clock he returned to the city, bringing the clothes with him, but left the head where he found it. He then went to the station at the City Hospital, and left word with the police, who this morning informed the Coroner.

The Coroner, Undertaker, County Physician and one or two reporters visited the spot this morning, in company with the German, who pointed out the clump where the head was, but upon pushing back the willows the head was gone. There were tracks in the sand leading from the clump down to the water's edge, but after a long search neither the head nor the body could be found.

The German, who is evidently a straightforward, honest man, gave a very minute description of the head, describing it as being that of a man about thirty years of age, hair cut off close behind and a black moustache. The head had apparently been severed only a short time.

The bushes, grass and railroad track in the vicinity were carefully examined but no traces were found. If any one had been run over it is evident that some traces would have been found. As the head has disappeared so suddenly, and as the man says he was watched closely by parties living in a collection of shanties in that vicinity, it certainly fixes an air of mystery and a degree of certainly which will warrant a strict and thorough investigation. When our Reporter left, the Coroner was still engaged in the search, but as yet nothing has elapsed to throw any light upon this truly mysterious affair.—*Chicago Journal, of Friday evening.*

MONEY MATTERS IN MINNESOTA.—The St. Paul *Pioneer* of Friday last says:

Financial matters have become still further depressed since our last report. But very little money is in circulation—that little is confined to our State currency—and confidence in some of that is diminishing. We hear that a "run" has been going on, for a day or two, upon the redemption agency of the People's Bank, issued nominally at St. Peter, but managed, and, in the language of the illustrious Pease, its circulation "protected," by Mr. E. S. Edgerton, Banker, of this city. Whether it will maintain its standing, must depend upon the honesty and responsibility of the manager; and these are points upon which we are unable to give the public any information. We are advised that the failure of Messrs. Caldwell & Co., will not affect the credit of the La Crosse and La Crescent Bank. This firm redeemed that issue at this point, but its members had no hand in the ownership or management of the Bank.

We present below a table from the books in the Auditor's office, showing the amount of notes originally issued to the Banks which have retired any portion of their currency, the amount remaining now in circulation, and the amount retired:

	Original issue	In Circul'n.	Retired.
Bank of the State of Minnesota	$95,000	$26,000	$69,000
Bank of St. Paul	25,000	10,000	15,000
Bank of Owatonna	25,000	20,840	5,160
Bank of Rochester	49,400	46,950	2,450
Chicago County Bank	22,451	22,051	500
Exching Bank, Glencoe	70,625	60,625	10,000
Fillmore Co. Bank	25,000	5,000	20,000
Totals	$252,476	$210,416	$62,060

AT THE LAST ACCOUNTS there was considerable gossip in Paris about the singular marriage of a celebrated ballet dancer.

Mdlle. Piquata, a Spanish dancer from the Rue Monmartre, had attained to such excellence in her art, that she could dance the cachucha on four flying steeds at once, and burst through the hoop at the end. She was so clever that she had obtained an engagement in the troupe of the brothers Loyal, well known all over France. Last year, at the *fete* of Passy, an aged gentleman, with snow white hair, being in a frolicsome mood, went to the Loyal's tent, with other gay youths of his own age, in order to quiz and encourage the dancers. Towards the end of the performance the charming Paquita appeared.—She whirled around the ring—she flew—she spun—and at the end she burst through the hoop just above his head—her foot slipped, and she fell plump into his bosom. Both were taken out senseless—Paquita to her garret at the inn, and the old boy to his blue satin bedchamber at his Chateau de Monlins, in the neighborhood; and yet, henceforth Paquita is to occupy the best place in the chateau and the warmest corner in the old boy's emblazoned carriage, bearing his name and title.

A MAN BIT BY A RATTLESNAKE.—On Saturday evening last, a man named Edward Turner, the proprietor of a snake show, at Harrisburg, Pa., was bitten on the hand by one of his rattlesnakes. The Harrisburg *Union* says:

The snake which inflicted the bite was one he had purchased on Saturday, and it appears from his statement he had not got control over him yet. While handling the snake for the gratification of the visitors present, he was bit on the hand, which immediately commenced to swell. His attendant immediately procured a pint of whiskey, which was drank without producing any effect, when another, and still another pint was drank, and then a pint of brandy, before he felt the effects. He rested until yesterday morning, when he drank a quart of whiskey, which had the effect to thoroughly intoxicate him. His hand was swollen considerably, and when the doctor arrived, who was called in yesterday morning, he had a handkerchief which was tied around the man's wrist removed, when the swelling went up his arm, and appeared to give the patient considerable relief. He was removed in the afternoon to the poor-house, and there are hopes that he may recover.

A GOOD JOKE—THE KNOWING ONES TAKEN IN AND DONE FOR.—A letter in *Porter's Spirit of the Times*, dated Andover, England, July 1, has the following good fun. It's enough to make a horse laugh:

Fisherman ran yesterday in a most curious race; he and Marionette, the horse that was really second in the last Derby, met in the Steward's Plate, at Stockbridge; two others of less note started, one of them, named Nimrod, having been put in for the mere purpose of making play for them—they allowed him to get so far ahead of them, that when they wanted to go and win, they found they could not reach him. Report says that this Nimrod was hired for the occasion, and that all his party and their friends had invested their money on Marionette. The length of their faces may be imagined, when they found the boy on the hired outsider was winning in a canter. The laughter was intense, for the owner of the winner had not backed his horse for a farthing, but had put his money on Marionette, on whom odds were laid against the field.

AN EXPENSIVE CLAM.—At the late clambake at Bryan's Grove, where the Centreville Sunday School were holding their pic-nic, yesterday afternoon, Mr. Dennison, who was superintending the operation, dropped his gold hunting watch into the pit with the clams. Some of the party advised taking up the whole concern, and getting the watch out. Mr. Dennison advised letting the whole concern alone, and leave the watch to bake. The company offered no resistance to this, knowing they could afford it if he could, and the watch was accordingly cooked until the clams opened their faces. At the end of 40 minutes the watch was taken out with a shovel full of clams, so hot that it had to cool for some minutes before it could be opened. It had not stopped doing its duty thro' the entire heat, and is as good a watch to-day "as any body's got." Put it down as a hard-shell.—*Norwich (Conn.) Bulletin.*

LOWERING SHIPS' BOATS.—The following allusion to a new invention for lowering ships' boats is taken from an English paper:

When the *Urgent*, screw steam troop ship, now just returned to Portsmouth to repair, was at Gibraltar, the Prince of Wales went on board and requested to see the quarter-boats lowered at a moment's notice by Clifford's new system. This was done, and Capt. Hire had the honor of proving to the Prince that a boy of fifteen years of age had entire control over the lowering, single handed, as he had in his presence lowered the boat half way, then stopped it, then lowered away again, and cast off. When in the Bay of Biscay, the ship going eleven knots, a mat has been thrown overboard, representing a man, and a boat has been lowered, and the mat picked up in one minute and forty seconds.

A TORRID TERM IN EUROPE.—The foreign journals received by the *Europa* contain numerous paragraphs about the terrific heat of the first half of the month of July. The 6th was reported to be the hottest day ever known in the South of France—the thermometer attained the extraordinary height of 118 degrees of Fahrenheit's Scale. There has been no heat approaching to this since July, 1832, and then the highest degree marked was but 111 Fahrenheit.

THE CAMEL FOR FARM LABOR.—The success which has attended the introduction of the camel into the United States, by the Government, as a substitute for the horse and mule, is attracting no little attention from the Southern agriculturists. The Richmond (Va.) *News*, in an editorial, discusses the propriety of introducing them on the cotton plantations, and adds:

A gentleman informs us, who has witnessed the performance of the camel in harness, that in many particulars they are preferable to the mule. They require less solid food, coarse cheap provender being sufficient for them. The great age to which they attain, and their almost entire exemption from disease, render them almost an heir-loom in a family, lasting through several generations. They are the most docile of all animals, and such is their tractableness that a boy can control them under all circumstances. At the word of command they can be made to assume any position, and are unfaltering in their efforts to move horizontally, or to rise with the most severe draught, or the most cumbrous burden.

A FALSE PRETENCE.—An Irish innkeeper came to a small village in the neighborhood of Brighton, England, and commenced business under the sign of the "Two Monkeys." The publican already established there, walking past the new house one day, and seeing his rival at the door, desired to be introduced to his partner. The other replied that he was in business on his own account. "The more shame for you," chuckled the original Boniface, "to carry on business under the false pretence of partnership (pointing to the sign) when there is only one of you." "Oh," retorted the Hibernian, "it's myself that wondered why a rival in trade should ask for an introduction, until I remembered reading once that 'A fellow feeling make us feel wondrous kind!'"

MADAME JENNY LIND GOLDSCHMIDT will visit Ireland in the Autumn, for the purpose of singing in oratorios. She intends giving the Messiah, for the benefit of the Mercer's Hospital, in Dublin. She will visit Cork, Limerick, and Belfast as well.

☞ A GREAT MEDICINE FOR FEMALES.—Hundreds of stimulants have been invented and sold, purporting to be specific in the various diseases and derangements to which the delicate form of woman renders her subject. The result of all these stimulants has been to impart *momentary activity* to the *nervous system*, and false vigor to the *muscles*; but this relief has been succeeded by a depression and prostration greater than before; and the repeated attempts of in exhibit to build themselves up by these *false remedies*, have finally ended in destroying what little organization was left. But in using HORNHAVE'S HOLLAND BITTERS you will find no such disastrous results. It is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Boerhave. Under its influence, *every* nerve and muscle receives new strength and vigor, appetite and sleep return, and, finally, perfect health. See advertisement in another column.

CAUTION!—Beware of imposition! See that the name of Benjamin Page, jr. & Co., sole proprietors Pittsburgh, Pa., is on the label of every bottle.

It prevents the Hair from falling off.
It promotes its healthy and vigorous growth.
It is not greasy or sticky.
It keeps in any climate.
It softens the Hair when dried out dry.
It softens the irritated scalp skin.
It gratifies the richest tastes.
It requires but little in effect.
It costs fifty cents for a half pint bottle.

Burnett's Cocoaine.
Burnett's Cocoaine.
Burnett's Cocoaine.

TESTIMONIAL.

BOSTON, July 19, 1857.

MESSRS. J. BURNETT & CO.—I cannot refuse to state the salutary effect in my own aggravated case, of your excellent Hair Oil—(Cocoaine.)

For many months my hair has been falling off, until I was fearful of losing it entirely. The skin upon my head became gradually more and more inflamed, so that I could not touch it without pain. This irritated condition I attributed to the use of various advertised hair washes, which I have since been told contain camphene spirit.

By the advice of my physician, to whom you had shown your process of purifying the Oil, I commenced its use the last week in June. The first application allayed the itching and irritation; in three or four days the redness and tenderness disappeared—the hair ceased to fall, and I have now a thick growth of new hair. I trust that others, similarly afflicted, will be induced to try the same remedy.

Yours, very truly,
SUSAN R. POPE.

Burnett's Cocoaine.
Burnett's Cocoaine.
Burnett's Cocoaine.

A single application renders the hair, (no matter how stiff and dry,) soft and glossy for several days. It is conceded by all who have used it to be *the best and cheapest Hair Dressing in the World.*

Prepared by JOSEPH BURNETT & CO., Boston.

For sale by dealers generally, at 50 cents a bottle.

A CARD TO THE "LADIES."

Dr. Dupence's Golden Periodical Pills
FOR FEMALES.

THE COMBINATION OF INGREDIENTS in Dr. Dupence's Golden Pills are perfectly harmless. They have been used in the private practice of old Dr. Dupence for over thirty years, and thousands of ladies can testify to their great and never failing success in almost every case, in correcting irregularities, relieving painful and distressing menstruation, particularly at the change of life. From five to ten pills will cure that common yet dreadful complaint, the Whites. Nearly every lady in the land suffers from that complaint. The above pill has permanently cured thousands, and will cure you if you use them. They cannot harm you, on the contrary, they remove all obstructions, restore nature to its proper channel, and invigorate the whole system. Ladies whose health will not permit an increase of family, will find these pills a successful preventative. Pregnant Females, or those supposing themselves so, are cautioned against using these pills while pregnant, as the proprietor assumes no responsibility after the above admonition although their mildness would prevent any mischief to the health—otherwise, these pills are recommended. Full and explicit directions accompany each box. Price $1,00 per box. H. DOSWORTH & SONS.

Wholesale Agents for Milwaukee.

They will supply the trade at Proprietor's prices, and furnish circulars, and show cards. Sold also by H. Fess, jr., 195 East Water St., J. M. Alcott 203, J. H. Tesch, 9 Spring St., and C. H. Gardiner & Co., 19 Spring St. "Ladies" by enclosing $1,00 to H. Bosworth & Sons, or either of the above Agents, can have the above Golden Pills sent to any part of the country (confidentially) by mail.

N. B.—Be particular in asking for Dr. Dupenco's Golden Pills, and remember, they are not a secret nostrum, every agent is given the receipt composing the Pills, and they will tell you they are the best and safest Pill for Females, ever introduced since the science of Medicine dawned upon the world.

Sep21h27d&wly.

MOTHERS! MOTHERS!

DON'T FAIL TO PROCURE MRS. Winslow's Soothing Syrup for children teething. It has no equal on earth. It greatly facilitates the process of teething, by softening the gums, reducing all inflamation—will allay all pain, and is sure to regulate the bowels. Depend upon it, mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases.

This valuable preparation is the prescription of one of the most experienced and skillful Female Physicians in New England, and has been used with never failing success in millions of cases.

We believe it is the best and surest remedy in the world, in all cases of Dysentery and Diarrhœa in children, whether it arise from teething or from any other cause.

Life and health can be estimated by dollars and cents, it is worth its weight in gold.

Millions of bottles are sold every year in the United States. It is an old and well tried remedy.

PRICE ONLY 25 CENTS A BOTTLE.

☞ None genuine unless the fac simile of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by Druggists throughout the world. Office No. 5 Cedar street New York.

Sold in Milwaukee by John Rice.

A DIRGE.

BY ALICE CARY.

A blue stone, not a hand's breadth wide,
And a rose in whose tender face
Her heart is bleeding to death, will guide
Your footsteps to the place.

Narrow and nameless is the mount,
But you cannot fail to know
The place, by the rose with her face on the ground
Mourning her twin below.

By a heap of crags all wild and brown
Standeth a willow, fair,
Sadly letting her green locks down
To comfort her despair.

The prattling brook which there must pass,
From sunshine into the shade,
Holds by its dimpled hands to the grass
Like one who is afraid.

Like one afraid of the shadows dun
That on its bright banks lie,
All day reproaching th' kingly Sun
For shining in the sky.

Flying that way, no wild bird sings—
The morning merry and brave,
Hides her eyes in her cloudy wings,
Passing the little grave.

Americanisms.

Mr. Mackay, in his new book about America, gives the following specimens of words that have lost in America their original English meaning:

To exercise, means to agitate, vex, or trouble. Thus it is said of a Senator in Congress, that he is *exercised* by the great question he is about to bring forward, or that Mr. ——— was much *exercised* by an attack upon him in a newspaper.

Bright means "clever." A clergyman, or a man of talent, would, in America, be called a "bright man."

Clever means "amiable and courteous." A "clever" captain is one who is friendly, attentive and polite to his passengers. Among the recommendations sometimes advertised in the Mississippi and Ohio steamboats, is that the captain and the clerk are the cleverest on the line, and for this reason agreeable to the ladies.

Amiable means "stupid." A member of the House of Representatives and a most worthy man, was highly offended at hearing his friend called "amiable" by an Englishman. He thought the phrase implied a reproach, or a sneer, and declared that the word "amiable" was synonymous with what in English slang is called "spooney." "You may call a woman 'amiable,'" said he, "but not a man."

This is in obedience to the same law of character which has given among us the meaning of silliness to the words innocent or simple, and has disgraced the sense of the word silly itself, which once meant only blessed and innocent; as there are thousands who would still account it more reproach to say of a man he was a "blessed innocent" than to call him a fool.

Among the pure Americanisms may be cited the following:

To honeyfugle, to gloze, flatter, bamboozle, or "take in."

High falutin, or *vertooten*. signifies high-flown, exaggerated, and bombastic in speech or writing.

Splurge, a display, an outburst of expenditure, such as to create a sensation among the bystanders or witnesses.

To examine, to decamp, or vanish.

Pile, a fortune.

Swagger, a dandy, or "gswell."

Mung, news, a fabrication.

Bender, a spree.

To go on a bender, to go on the spree.

Grit, the real grit, the true grit. These words or phrases are used to signify a person of superior worth, solidity and genuineness, as distinguished from another who is inferior, or merely "chaff." The miller is evidently the parent of the expression.

Declension. "I have been writing," said a lady, "several declensions to dinners and balls." The word is equivalent to refusal, but it seems to mean refusal for reasons assigned—a declinature.

Bogus, false or sham; said to be derived from the name of a man notorious for issuing counterfeit notes. Hence "bogus" news, a "bogus" meeting, a "bogus" baby, a "bogus" Senator, a "bogus" Convention.

Whole-souled, a very common expression in America, to express a hearty, enthusiastic person. In Lloyd's Railway Guide, the Bradshaw of America, it is stated of one of the hotels in a principal city, that "Colonel ——, the proprietor, is a whole-souled landlord."

Bim. Hit him in the eye—i. e., right in the eye.

Kizzi, a slight quarrel or controversy.

A scrimpede, a rush, a multitudinous exit.

Soodolager, a knock-down blow. There is a species of fish-hook of this name.

To overslaugh, a word apparently derived from the German or old English, like onslaught, and signifying to strike over.

Rocks, money—a California phrase.

To squirm, to wriggle like a worm.

To tote, to carry.

Wilted, withered.

A dough-face, a man easily moved to change his opinion, a person to be wrought upon and modeled to any particular shape, like a piece of dough.

Wood, Lumber, &c.

CASH COAL YARD!

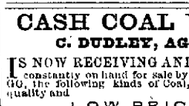
Livery & Boarding Stables.



J. H. BUTLER. D. T. POST.

LIVERY & BOARDING STABLE.
Foot of Mason St. near the old Post Office.

THE SUBSCRIBERS HAVE REMOVED their stock from the stable formerly occupied by them, on the east of Main and Huron streets, to the old establishment, foot of Mason street, thus consolidating the two into one, making the largest and best appointed Livery establishment in the entire West. We shall be glad to see our friends and customers, and feel confident that we can furnish them with as good and stylish a turnout as any similar establishment in the city. Particular attention given to furnishing Carriages and Hearses for funerals. Thankful for past patronage, we hope to meet a continuance of the same.

Books and Stationery.

STRICKLAND & CO.,

WILL PUBLISH ABOUT THE 15TH OF SEPTEMBER, Price a new and revised edition of

The Code of Procedure

OF THE

STATE OF WISCONSIN.

CONTAINING ALL THE AMENDMENTS OF THE LEGISLATURE.

THIS WORK CONTAINS THE CODE of Procedure, as it was passed in 1856, and amended in 1858. Both editions are made in it to the corresponding sections of Howard's and Voorhies' editions of the New York Code. It also contains the

Rules of the Supreme & Circuit Courts,

With all the amendments to the time of holding the various Circuits, &c., &c., together with an unusually copious index to the whole work. The chapter concerning JUSTICE'S COURTS has been very much enlarged, and altogether the Book constitutes a work which every

LAWYER

AND

Justice of the Peace

Should possess. The work has been submitted to the examination of the best Code Lawyers in the state, at every stage of its progress, and may be relied upon as an accurate compilation of the law of Practice and Pleading in our state, as it exists at the present. It will contain

BETWEEN 200 AND 300 PAGES,

Printed and Bound in the usual Law Book style,

And will be sold for

ONE DOLLAR AND A HALF;

On the receipt of which sum, it will be sent by mail, postage paid. STRICKLAND & CO.,

Hardware, Stoves, &c.

SPRING AND SUMMER.

HENRY J. NAZRO & CO.

HARDWARE, IRON, STEEL, NAILS, ROPE, AND TINMAN STOCK.

CASH SYSTEM.

HAVING ADOPTED THE CASH SYSTEM for the past year, seeing its advantages, particularly to our customers, we have concluded to continue selling our goods for Cash the coming year. We will sell in small or large quantities to suit customers, at such prices that we know are better than they can do elsewhere, taking quality into consideration.

We are confident the CASH SYSTEM is the only true one, and shall make increased efforts to do business on that basis, and no house can successfully compete with us.

RETAIL DEPARTMENT.

To this department, we call the especial attention of all in the city, country, and places tributary to Milwaukee, as possessing advantages to any store in the West. Our stock is larger, the assortment more numerous, and quality of the goods superior to that which you generally find in Hardware Stores.

Please call upon us, or send your orders, and we will endeavor to please you, both in prices and goods. TERMS CASH.

TINNERS' STOCK.

We keep constantly on hand a fine stock of TIN PLATE, COPPER, ZINC, WIRE, SHEET IRON, and everything used by tinners. Our prices are low, and we are prepared to compete with any other place, CHICAGO NOT EXCEPTED. Please send in your orders with the cash, and the goods will be shipped without delay. apr15

GARDEN TOOLS.

A full stock. FARMING TOOLS, a full stock.

NOTICE GENERALLY.

☞ We cannot enumerate our stock on paper, but request the public to bear in mind, that OUR STORE IS A CASH STORE. If you wish to buy to sell over and save money, call at THE ONLY CASH HARDWARE STORE IN THE COUNTRY. TIMES IS MONEY. Our store is so well arranged, that when you visit us to buy in person, we are not obliged to hunt all over the store to find the article called for. TIME IS MONEY. If you order by mail, your order will be filled as favorable as if you bought in person, but you must send all cash.

NAZRO'S BUILDING.

The only cash Hardware Store in the country. apr15. H. J. NAZRO & CO.

THE SENTINEL.

COMMERCIAL.

MILWAUKEE, August 15th, 1859.

Money Matters, &c.

The stagnation in all branches of business last week occasioned a very dull money market. There was no produce demand for money, and the discount business consequently very light. What good paper offering was freely taken by the Banks at the regular rate, and the brokers we imagine, found but little to do at their 1 to 2 ₰ cent a month rates. The ease in the market, at present is not the result of any super-abundance of currency in the hands of the banks, but arises rather from the unusually moderate demand which exists for it just now. Exchange was not scarce, but the current rate was still 2¼ ₰ cent on New York.

At Chicago the banks still keep it up to 2¾ premium but according to the *Press & Tribune* of Saturday, we see that it was selling on the street at 2¼ ₰ cent.

Breadstuffs, &c.

The following tables shows the movements of breadstuffs at this point for the week ending Saturday, and thus far this year, as compared with the corresponding periods in 1858:

Receipts.

Shipments.

To Buffalo	827	....	12,000	....	....	....

There was very little done in the wheat market on Saturday, and no perceptible change in prices. The sales were confined to a few hundred bushels of choice extra club at 75c; and a small lot of red winter at the same price. We heard the offered for No. 1, but there was none on market. There was quite an active local demand for oats, which sold freely at 28@29c. A small quantity of shelled corn went at 60c. Hides, which had been dull all the week, closed at a slight decline. There was no essential change in other articles.

CHICAGO, August 12th.—Receipts: 744 bbls flour, 31,633 bus wheat, 30,098 bus corn, 5,060 bus oats.—Shipments: 294 bbls flour, 1,200 bus wheat, 33,784 bus corn:

The wheat market continues active, and a shade firmer, though prices are not higher than yesterday.—The demand was principally for No. 1 spring, which sold freely at 70c. Winter was in limited request, and prices were rather unsettled and irregular. About 30,000 bushels of all kinds changed hands, at $1,00 for No. 1 in store; 87½@88c for No. 2 red in store; 69@70½ for No. 2 red, 70c for No. 1 spring; 66@66c for new standard; 56c for old standard; 48c for old No. 2; and 50c for new rejected. At the close there was a good inquiry for No. 1 spring, but there was very little offering, and the market was firm at the prices paid on 'Change. Corn was dull and declined 1½c, with sales of about 85,000 bushels, at 62c for canal afloat; and 60¾@61c for No. 1 in store.—Nothing in some sales for future delivery at 60c,—the market closing quiet. Oats in better request and steady at 29c in store. Rye declined 3c. A lot of 2,000 bus No. 2 barley sold at 48c on track. Highwines quiet at 22½@23c. Provisions quiet and firm. Low potatoes in light supply, and prime qualities a shade firmer.

Weekly Review of Milwaukee Markets.

Monday Morning, August 15, 1859.

FREIGHTS—Still remain nominal at the following rates:

	Flour, (by steam.)	Wheat.	Oats
To Buffalo	15c	3c	2c
To Oswego	20c	6c	3½c

FLOUR—Receipts were 1,203 barrels, against 505 for the previous week; and shipments 3,236 bbls, against 2,248. The New York reports showed a decline almost daily, and under this depressing influence our market was extremely dull all through the week, and sales so few that it is difficult to fix upon any reliable quotations. We give the sales as they occurred. Monday: 50 bbls "Stone Mills" spring extra at $5. Tuesday: 28 bbls "Sauk City Mills" spring extra at $4,25; 20 bbls country spring extra at $4; 40 bbls rye flour at $3,25. Wednesday: 100 bbls "Caledonia Creek" spring extra at $4; 85 bbls "Bark River" do at $4; 60 bbls common at $3,75; 200 bbls "Magnolia" (city) at $4,50. Thursday: 100 bbls "Milwaukee" (Humboldt) spring extra sold at $4,25. Friday: 50 bbls "Western Star" (Sheboygan) double extra at $5,50. Saturday: 100 bbls "Washington" white winter at $5,50; and 20 bbls "Wyoming" spring extra at $4,25.

WHEAT—Receipts 10,437 bushels, against 6,179 for the previous week; and shipments 21,265 bus, against 14,465. Just now, between the old and new crops, is probably the dullest period of the year, and the unfavorable tenor of market reports daily received from the East does not help matters any. Scarcely any new wheat has yet come to market, and transactions are so light that we can hardly consider any quotations as being established. During the week No. 1 suffered a nominal decline of 10c; but extra club being scarce the millers continued to pay the old price for what they could pick up. Monday, sales were 300, and 200 bus No. 1 spring at 68c; 800 and 100 bus extra No. 2 at 65c; 320 bus extra club at 70c. Tuesday, 450 bus extra club at 70c; 300 bus do (new) at 75c. No sales of No. 1, 60c offered. Wednesday, 860 bus No. 1 spring at 68c; 1,000 bus very choice old extra 75c. Thursday, 700 bus extra on p. t. 56c offered for No. 1. Friday, 300 bus new extra at 78c; 100 bus XXX white 75c, 200 bus old white winter at 87½c. On Saturday the only sales we heard of were 400 bus extra club (choice new) at 75c; 50 bus red winter at same price. 55c offered for No. 1 spring.

OATS—Receipts 908 bus, against 4,969 for the week previous; and shipments 12,000 bus, against 10,000. There was a pretty good demand for all arriving, shippers paying 25@26c, and retailers' prices ranging from 27 to 29c. We note sales 1,300 bus at 25c; 300 bus at 26c; 380 bus at 27c; 200 bus at 28c; 140 bus at 29c, and various other small lots at prices within this range. Saturday there was a good local demand, and sales of 150 bus at 28c, and 450 at 29c.

CORN—Receipts were 747 bus, against 602 for the previous week. A few thousand bushels sold f. o. b. at 60@62c, equal to 55@60c in store. Saturday, 150 bus shelled sold at 60c.

BARLEY—Receipts —— bus, against 302 for the previous week. The brewers are not using any, and there is scarcely any demand for it at present, and new is nominally quoted at 40@45c.

RYE—Receipts 405 bus, against 317 for the previous week. It is quoted at 50 to 53c; but there is scarcely any enquiry for it at present.

POTATOES—Were in tolerably good supply towards the latter end of the week, considerable quantities coming in from the gardens about the city, and they were selling at from 50 to 70c ₰ bus. A few lots of choice southern potatoes sold at 80 to 87½c.

EGGS—Were selling at 8@9c ₰ the barrel on Saturday.

BUTTER—10@12½c for firkin, and 13@14c for fresh roll and jar.

HIDES—Receipts 25,245 lbs, against 23,815 for the week previous. The market had a downward tendency and at the close quotations were: green 6¾@7c; dried 12@8½c; dry salted 18@14c; dry flint 15@16c; green and salted calf skins 8@10c.

LUMBER—No cargo sales. Business at the yards very dull. Prices unchanged.

RECEIPTS BY RAILROADS.

RECEIVED BY MILWAUKEE & MISSISSIPPI RAILROAD, Aug. 13.—30 bbls flour, 1,015 bus wheat, 234 bus oats, 1 bus corn, 71 bus rye, 50 bus potatoes, 2 bbls eggs, 7 head cattle, 2,662 lbs hides, 200 lbs butter, 1,480 lbs pig, 7,374 lbs sundries, 5,477 lbs wool.
